PROJECTS

MOVIES TICKETING WEBSITE

- The frontend of the website is built using HTML, CSS, and JavaScript. HTML provides the structure and content of the web pages, while CSS handles the styling and visual presentation. JavaScript is used for adding interactivity and handling various client-side functionalities.
- Responsive design for optimal viewing on different devices.
- Movie listing with details such as genre, rating, and synopsis.
- Showtimes and seat availability display.
- User authentication and profile management.

SHOPPING WEBSITE

- A comprehensive and well-organized product catalog with categories, subcategories, and detailed product descriptions, images, pricing, and specifications
- A user-friendly shopping cart system that allows customers to add, remove, and update quantities of products before checking out.
- The ability to showcase special offers, discounts, and promotional campaigns to attract and retain customer.

PROFESSIONAL EXPERIENCE

Full stack Developer, Innovars Ideas

11/2023 – 01/2024 | Oyo, Nigeria

During my time at Innovars ideas, I contributed to the development and maintenance of web applications, focusing on creating visually appealing and user-friendly interfaces. I collaborated with cross-functional teams to gather requirements and implement solutions that enhance user experience. Additionally, I worked on ensuring the responsiveness and compatibility of websites across various devices and browsers.

Web Developer, Yakubu Co.

03/2023 – Present | Oyo, Nigeria

Developed a secure, interactive web application with a modern front-end framework and an intuitive user interface. Implemented a responsive design that ensured the web application was accessible on all devices. Collaborated with cross-functional teams to identify customer requirements and develop technical solutions

INTERNSHIP, EDUCTECH

09/2023 – 12/2023 | Oyo, Nigeria

Implemented a single-page application using React and Redux that improved overall performance and usability. Utilized HTMLX, CSSX, and JavaScript to create a dynamic, interactive user interface that improved user experience.
